① **ARRAS TOWER** : Like a sentinel over the Rhône Valley the tower used to watch over the St-Joseph hillsides and boats going past.

② **ROMAN CHURCH IN VION** : A long time ago the Roman church named St Martin was on the edge of the river Rhône and built on the ruins of a castle. Worth a visit to admire its well-preserved state.

③ **PICNIC CORNER** : Set on a hillside the church in Vion is an invigorating break before the uphill slope. Worth the stop if you appreciate Roman art !

A LITTLE BONUS

From Lake Leman to the Mediterranean the ViaRhôna cycling route follows the river Rhône. Go with the flow as you ride along.
